Portfolio: 848bruno.github.io/vite_portfolio/

PROFESSIONAL SUMMARY

Full-stack web developer with hands-on experience building responsive frontend applications and backend systems using modern web technologies. Experienced in HTML, CSS, Bootstrap, JavaScript, TypeScript, ReactJS, Python, Django, REST APIs, PostgreSQL, and API integrations. Passionate about sharing technical knowledge, supporting learners, solving coding challenges, and helping aspiring developers build practical skills.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Bootstrap, JavaScript, TypeScript, ReactJS
Backend: Python, Django, NestJS, REST APIs
Databases: PostgreSQL, SQL
APIs & Integration: M-Pesa API, REST APIs, authentication and third-party integrations
Tools: Git, GitHub, Docker, VS Code
Other: Responsive Design, Debugging, Database Management, API Development, AI/LLM Integration

EDUCATION

Kirinyaga University

Bachelor of Applied Science (BASc), Information Technology
Sep 2022 - Apr 2026

Relevant areas: Software Development, Web Development, Databases, Networking, DevOps and Information Technology.

eMobilis Mobile Technology Institute

Web Development Scholarship Program - Class Gemini
2025

Hands-on training in frontend and backend web development and development of practical web applications.

WEB DEVELOPMENT EXPERIENCE

Software Developer Trainee - TEACH2GIVE

2025 - Present

- Developed full-stack applications using modern frontend and backend technologies.
- Worked with JavaScript, TypeScript, React, NestJS, PostgreSQL and REST APIs.
- Practiced Git/GitHub workflows, Docker, authentication and role-based access control.
- Worked on real-world development tasks involving debugging, APIs, databases and application deployment.
- Collaborated with other developers and participated in technical learning and peer support.

SELECTED PROJECTS

Smart Hostel Finder - Full-Stack Web Application

React | Backend APIs | PostgreSQL | M-Pesa | Maps | AI

- Developed and deployed a student accommodation platform for discovering, comparing and booking hostels.
- Implemented search and filtering based on price, distance, amenities and ratings.
- Integrated interactive maps and location-based hostel discovery.
- Implemented M-Pesa and card payment functionality.
- Built features for hostel owners, student reviews, ratings and vacancy information.
- Added AI-powered assistance to help students find suitable accommodation.

Live Demo: https://hostel-finder-sandy.vercel.app/

PhotoVault - Professional Photo Delivery Platform

Python | Django | Bootstrap | PostgreSQL | REST APIs

- Built a full-stack photo delivery and e-commerce platform using Django and Bootstrap.
- Developed authentication, role-based access and client dashboards.
- Implemented photo management, orders, payments and digital downloads.
- Worked with PostgreSQL, Redis, Celery and secure application practices.

Live Demo: https://photovault-b5pu.onrender.com/

AI Workflow Automation Project

n8n | OpenAI | Google Calendar

- Built an AI-powered workflow using n8n and OpenAI.
- Configured workflows, credentials and JSON expressions.
- Practiced troubleshooting and analyzing AI agent logs.

MENTORING & LEADERSHIP

- Supported peers and fellow learners with web development concepts, coding challenges and debugging.
- Explain technical concepts using simple explanations, practical examples and hands-on exercises.
- Encourage learners to ask questions, practice independently and explain concepts back to reinforce understanding.
- Provide constructive feedback and adapt teaching approaches according to individual learning needs.
- Active participant in the TEACH2GIVE learning and developer community.

CERTIFICATIONS & TRAINING

Microsoft - JS AI Build-a-thon (Participant) | 2025
Generative AI, LLMs, JavaScript and Azure OpenAI

Cisco - Introduction to Cybersecurity | 2025
Cybersecurity principles, threat detection, privacy and network security

TEACH2GIVE - Industrial Attachment | 2025
Git, TypeScript, PostgreSQL, NestJS, Docker, React, APIs, authentication and web development

CORE STRENGTHS

- Technical Communication
- Mentoring & Peer Support
- Problem Solving
- Debugging & Troubleshooting
- Full-Stack Development

- Team Collaboration
- Continuous Learning
- Leadership
